

Tanzania Safari

DURING THE GREAT MIGRATION

January 20 – 31, 2026

Compelled by curiosity, adventure and a yearning for discovery, intellectuals and the wild at heart have been coming to Tanzania since the dawn of travel. Join us on these grassy plains as we follow the path of the Great Migration, an annual spectacle where more than a million wildebeest follow the rains in search of greener pastures. Zebras, gazelles and other grazers make the pilgrimage, while tree-climbing lions, fast-moving cheetahs and hungry Nile crocodiles lie in wait. Witness every thundering stampede, every tail swish and every split-second pounce on a 12-day safari itinerary that includes visits to two of Tanzania's finest game parks — Serengeti and Tarangire — and the UNESCO-designated Ngorongoro Crater, known for its high concentration of wildlife. Search for the Big Five — the Cape buffalo, African savanna elephant, leopard, lion and black rhinoceros — plus myriad other wildlife species on this journey to remember.

Exclusive Highlights

- Revel in astounding encounters with animals and birdlife on guided game drives within two of Tanzania's most scenic wildlife reserves, all in the care of expert local drivers/guides.
- Specially arranged visit to the Kibaoni Primary School to meet students and learn about their educational program.
- Two UNESCO World Heritage sites
- Ngorongoro Conservation Area and Serengeti National Park.

Dear Texas Ex:

"I never knew of a morning in Africa when I woke up that I was not happy," wrote Ernest Hemingway in "True at First Light." In 1933, the Nobel Prize-winner and his wife Pauline set up camp along the banks of Lake Manyara. Hemingway's three-month safari inspired some of his most celebrated works, including "The Green Hills of Africa."

It's been nearly a century since Hemingway camped beneath the fig trees, yet the natural splendor remains. Experience the invigorating wonder for yourself on this 9-night journey to Tanzania. Behold the phenomenon of the Great Migration on land — the most comprehensive way to experience one of Earth's most incredible natural spectacles.

Visit two of Tanzania's finest game parks — Serengeti and Tarangire. Begin your days with early morning game drives, when nocturnal animals conclude their foraging and the grazers of the plains begin. Experience afternoon game drives as daylight turns to dusk and the remarkable glow of the setting sun illuminates the African wilderness. Descend in a four-wheel-drive Land Cruiser into the impressive 12-mile-wide Ngorongoro Crater, a UNESCO World Heritage-designated Conservation Area.

Stay in award-winning accommodations, ideally located for optimal wildlife observation and game drives. Unforgettable encounters with Africa's signature wildlife are complemented with the exceptional aerial perspective of the land in a private charter flight.

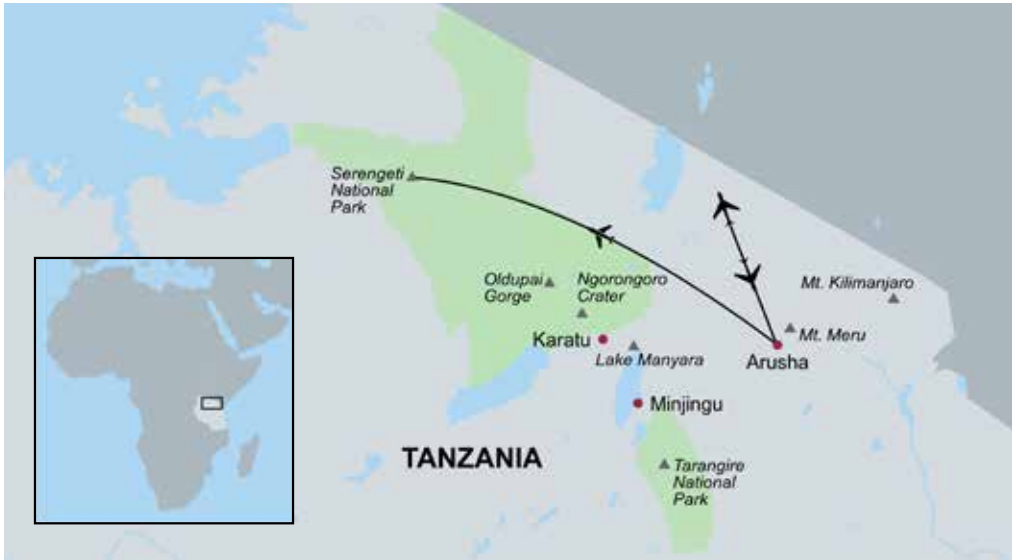

This outstanding itinerary is brought to you by the Texas Exes travel program, which supports the association's mission of promoting and protecting The University of Texas at Austin and uniting its alumni around the world. Ancient Rhythms of the Serengeti

A spectacular profusion of wildlife harmoniously coexists with semi-nomadic Maasai people who have roamed its trackless grasslands for centuries. The key to the vitality of the Serengeti lies in the seasonal migrations of wildlife in a rhythmic cycle triggered by a search for water. By November of each year, heavy rains have replenished the Serengeti's savannas with succulent grasses, herbs and shrub foliage. Herds of grazing animals begin the 620-mile-long journey from the Maasai Mara to the Serengeti, returning for the January through March calving season — the optimal time for humans to view a phenomenon regarded as one of the Seven Natural Wonders of Africa.
